

Statement to the Yackandandah Community

Issued 16.04.2026

Continuity assured for Yackandandah Medical Centre & Little Yacks Early Learning Centre

Yackandandah Health Limited (YHL) understands the importance of these services to our region. We believe specialist operators with proven regional capability will provide the strongest long-term outcomes for the community, bringing the expertise required to strengthen and sustain these services. The process of selecting the operators will be structured, transparent, aligned to community values, and involve formal Board consideration and approval. This process may take time, as securing the “right” operator for each service is the priority. Apollo Care will continue to ensure the Medical Centre and Little Yacks are both maintained and run responsibly in the interim.

The current position remains unchanged unless otherwise advised.
